Complete all of the 8 map sheets to be turned in Friday, August 16th. Directions for doing this:

- \*Come by my room, B-1, to pick up copies of maps before you leave school for the summer
- \*\*\*Identify each country on each continent
- \*\*\*Differentiate each country by either outlining each in a different color from those surrounding it, or you may color in if you would rather
- \*\*\*List 3-5 main product and/or resources for each larger country OR for the region (do this for smaller countries that *may have products or resources in common*); use your judgement on this part
- \*Do this part in a separate, typed document.
